In addition to what is required by legislation regarding introducing unifying criteria for evaluating the equivalent financial situation (I.S.E.E.U.), the following special conditions will be considered when determining the indicator:

- 50% of the income and assets of brothers and/or sisters who are part of the student's household contributes to the formation of all the indicators of the patrimonial and financial status
- household members' income and personal estate received abroad in 2013 will be evaluated on the basis of the average exchange rate in 2013
- real estate located abroad owned on 31 December 2013 is evaluated only in the case of buildings, and is assessed on the basis of the value of € 500.00 per square meter.

A simulation of calculation of ISEE with purely indicative values and which does not represent a certification can be completed on the website <http://www.inps.it/Servizi/isee>.

Art. 12 – Verification of Financial Conditions and Veracity of Financial Information Provided (Italian D.P.R. 445/2000, article 71)

For the purposes of ascertaining an applicant’s financial status, ISU Bocconi will avail itself of the means provided for by law, in particular article 22 of Italian Law 390 of 2 December 1991, and article 71 of Italian Presidential Decree 445 of 28 December 2000, and will request supporting documentation attesting to the veracity of the declaration (Form 730, Consolidated Form, VAT declaration, etc.).

By agreement with the Lombardy Region Revenue Office, Ministry of Finance, the accuracy of the self-certification provided by students who are deemed eligible for financial services or provision of services through open competition will be checked, pursuant to current laws and in particular article 71 of Italian Presidential Decree 445/2000. 2. Service provider organizations send the lists of recipients of the same Financial Administration and can request them to carry out physical verifications and checks. The members of the family household of students benefiting from services are included in the categories that they are subject to, pursuant to applicable regulations, with maximum controls.
3. Without finding themselves in the conditions established by the state and regional regulations, **anyone who submits false declarations, either regarding themselves or members of their family household, in order to make use of related actions, is subject to a considerable**

administrative sanction in the payment of an amount three times the amount collected, or the value of the services unduly utilized, **and loses the right to obtain other grants for the duration of the study program**, without prejudice to in any case the application of sanctions referred to in article 38, paragraph 3 of the Italian Law-Decree n. 78 of 31 May 2010, converted, with changes from Italian Law n. 122 of 30 July 2010, as well as criminal laws for the actions making up the crime.

Art. 14 – Procedures for Establishing Rankings

The rankings will be determined as follows, for each year of each level of studies:

- a) Students enrolled in the first year of all degree programs** (Bachelor, Integrated Master of Arts in Law, Master of Science, PhD);

The ranking is determined in increasing order by the I.S.E.E./I.S.E.E.U. indicator of the family household up to the limit of € 20,728.45 for a maximum of 1000 points given following this formula:

$$1 - \frac{\text{Student I.S.E.E.U./I.S.E.E.}}{20,728.45} \times 1,000$$

The ranking is determined by the score awarded in decreasing order. Where parity occurs, the student who is enrolled in a higher degree program takes priority, where further parity occurs the younger age takes priority.

b) Students enrolled in years after the first, in all degree programs

The ranking is determined in decreasing order from the overall score achieved, adding the score relating to the number of educational credits acquired by 10 August 2014, and the score determined by the weighted grade point average. The highest possible number of points is 1000 distributed as follows: 600 based on the number of educational credits acquired and 400 based on the weighted grade point average, as follows:

- score for educational credits achieved by 10 August 2014 is calculated using the following formula:

$$\frac{(\text{Student credits} - \text{Minimum credits})}{(\text{Maximum credits} - \text{Minimum credits})} \times 600$$

- score for weighted grade point average is calculated using the following formula:

$$\frac{(\text{Student's GPA} - \text{Minimum grade})}{(\text{Maximum grade} - \text{Minimum grade})} \times 400$$

Where merit is equal, the student who has not used bonus credits has the priority in the ranking and then the student with the highest income score. Where parity still exists, the youngest student prevails.

Students using their bonus credits will be placed at the end of the ranking.

Students with a disability level equal to or greater than 66% who are in the eligibility ranking, have the right to be awarded a scholarship even if that means that the number of scholarships available will be exceeded.

Art. 15 – Results and Placement of Students in Rankings: Eligible Student Recipients and Eligible Student Non-Recipients

Applications submitted within the deadlines set out in these regulations will be analyzed by ISU Bocconi, who will insert into the ranking students meeting requirements.

Students who submit applications will therefore be either:

- **eligible:** if meeting all requirements, or
- **ineligible:** if one or more requirements set out in these Regulations are missing

Assistance will be assigned to eligible students based on their placement in the ranking, starting from the highest positions until all available resources have been used.

Based on the effective assignment of assistance, students may therefore be either:

- **eligible recipients:** meeting all requirements and assigned assistance; or
- **eligible non-recipients:** meeting all requirements but not assigned requested assistance due to a lack of funds. In this case, eligible non-recipient students in the rankings may receive assistance at a later time, if further financial resources are made available.

Please note that eligible students – both recipients and non-recipients – for ISU Bocconi Scholarships will receive exemption from payment of tuition and fees, free meals (during periods in which the self-service canteen is open, starting from 7 January 2015) and **may make use of any integrations for internships and international mobility programs** (please see the related Rules and Regulations for the 2014-2015 a.y.).

Art. 16 – Publication of Provisional Rankings and Applying for Appeals and Revisions

Provisional rankings will be published on the ISU Bocconi notice boards, at the One-Stop Service Center and individual placements can be consulted on the ISUdesk www.unibocconi.eu/isudesk by **30 October 2014** for a period of at least 15 days.

Any appeals against provisional rankings or requests for revision due to mistakes of the applicant must be submitted to ISU Bocconi by and no later than 3pm on the 15th day after the publication of the same ranking.

Those wishing to submit an appeal may **only** submit it online, through the ISUdesk and provide ISU Bocconi with the documentation needed to justify the reasons for an appeal.

The results of appeals will be published on the ISUdesk at the same time the final rankings are published. In addition, the final ranking will communicate the ISU Bocconi bracket to which the student has been assigned. The ISU Bocconi bracket will define: the amount of the Scholarship to recipients, the cost of meals at a reduced price and, for guests staying at Bocconi Residence Halls at a reduced rate, the final amount of housing fees, determined in advance on a provisional basis based on information declared online in the HOUSINGdesk form.

Any appeals against the final decision must be submitted to the relevant bodies within the deadlines laid down by regulations in force.

Art. 17 – Granting of Scholarships

Scholarships will be awarded in accordance with the number set by these Regulations. Should there be a lack of recipients in some rankings, remaining scholarships will be awarded to students in other rankings until the number of scholarships established by the Regulations are all awarded.

Art. 18 – Total Scholarship Amounts

The amounts of scholarships are differentiated based on both the ISU Bocconi brackets corresponding to the family household's I.S.E.E./I.S.E.E.U. and the place of origin of the student, which will determine if the students is a resident student, a commuting student or a non-resident student.

Art. 18.1 – ISU Bocconi Brackets related to I.S.E.E./I.S.E.E.U. values

In absence of this condition, students are considered "commuting." Students may show intention to be considered "non-resident" through the ISUdesk procedure, though it will only be applied after submission of eligible documentation by the deadlines in these regulations.

To find out how to certify the status of "non-resident", please see Attachment C3.

Art. 18.3 - Scholarship amounts

The amounts of the scholarship, including reimbursement of the regional tax for equal access to university study, are defined as follows:

Eligible students, recipients and non-recipients of scholarships, will be able to make use of the following, free of charge:

- one meal per day at the Università Bocconi canteen services, during the entire period the service is open, between 7 January 2015 and 31 December 2015.

Student recipients and non-recipients of scholarships who do not use or use only partially the canteen service are **not** entitled to any reimbursement for unused meals.

The right to daily free meals lapses on the day after graduation.

Art. 19 – Method of Payment of Scholarships

Scholarship payment will be made in two installments each amounting to half the total scholarship, and only via wire transfer to the Italian account which is **in the name of the student recipient or a joint account in the name of the student recipient** and another person, which was indicated during the online data phase through the ISUdesk form.

The two installments will be paid within the following deadlines, once funds are transferred from Region Lombardy, as follows:

Payment to students in years subsequent to their first year of a program

- First installment: by 31 December 2014 (to all recipients whose payment has not been suspended for administrative reasons)
- Second installment: after 30 June 2015.

Payment to students in first year of a program

Student recipients of the scholarship in their first year of a Bachelor, Integrated Master of Arts in Law or Master of Science program will receive the first installment by 31 December 2014, and the balance for the total amount of the scholarship will be made only if the student has earned the number of credits stated in these Regulations on the date of 10 August 2015. If these credits have not been earned by the date of 10 August 2015, but have been earned by 30 November 2015, only the first Scholarship installment may be kept and payment of 50% of tuition and fees for the 2014-2015 a.y., with reference to Bocconi income brackets, will be required.

If these credits have not been earned by the date of 30 November 2015, the scholarship will be revoked and must be returned to Università Bocconi, including the cash value received and the value of services used free of charge. The student will also lose the right to the full tuition waiver, and he/she will have to regularize his or her administrative position at the TCA Bocconi Tuition and Fees Office at Università Bocconi. **For this reason, students enrolled in Bachelor and Integrated Master of Arts in Law programs are recommended to submit an application for placement in a Bocconi income bracket (not connected with the ISU Bocconi bracket) by the deadlines and using the methods defined by the TCA Office.** Students who have not collected the cash stipend of the assigned scholarship amount by 31 December 2015 will lose the opportunity to collect it, but will retain the remaining benefits.

Art. 20 – Exemption from Tuition and Fees for Students Eligible for Scholarships

Pursuant to article 8 of Italian DPCM 9 April 2001, all recipients of a scholarship, including eligible non-recipient students due to lack of funds, are fully exempt from enrollment fees and tuition and fees, except those enrolled in first year “fuori corso” who have full exemption from enrollment fees and half-exemption from tuition and fees. Eligible non-recipient students are exempt from payment of the regional fee for right to study.

If the status of student eligible for a scholarship is revoked for any reason, that student will also lose the right to exemption from tuition and fees and will have to regularize their administrative position at the TCA Bocconi Tuition and Fees Office at Università Bocconi.

Art. 21 – Incompatibility – Forfeiture – Revocation

Use of assistance and services for the right to study is reserved to students regularly enrolled in the 2014-2015 academic year, except when otherwise indicated in these Regulations. Please note that to be regularly enrolled, the first installment of tuition and fees must be paid and recorded in the student’s financial

position and the student must be regularly enrolled through the appropriate online form. Students not regularly enrolled at Università Bocconi by 14 September 2014 will not be considered eligible in the provisional ranking and may be readmitted in the final ranking only after being regularly enrolled and submitting an appeal for revision of their application by 3:00pm of the 15th day after publication of the provisional ranking.

Scholarships may not be combined with similar forms of economic aid provided by Università Bocconi or other private or public bodies, with scholarships awarded by the University pursuant to article 15 and 17 of Italian Law 390/91, with scholarships for international students awarded by the Ministry of Foreign Affairs, with housing free of charge in residential colleges, dorms or boarding schools not run by ISU Bocconi: in these cases students have the option of choosing one assistance or the other.

The scholarship is compatible with financial assistance for periods spent abroad related to the Erasmus-Socrates program.

The right to eligibility for ISU Bocconi and, if relevant, for scholarships and integrations will automatically be forfeited if:

- the student does not submit to ISU Bocconi, via registered mail and within the deadlines and using the methods requested by the Office, any original documentation required to check the accuracy of their self-certification; in such cases the application is treated as an untruthful declaration;
- the student withdraws from studies during the course of the year;
- the student transfers to another university during the course of the year.

Eligibility for ISU Bocconi and, if assigned, for related scholarships and integrations will also be revoked, with a specific ruling from the ISU Bocconi Director, if:

- the student incurs disciplinary sanctions greater than a written warning for infringement of Università Bocconi regulations.
- the student declares irregular household financial conditions (please see article 6 regarding the verification of financial conditions and related administrative consequences);
- the student no longer meets merit requirements as foreseen by these Regulations.

Regarding forfeiture and suspension of services, please note that:

- students must collect total amounts of completed payments by 31 December 2015, on penalty of forfeiting the payment: bank details must therefore be communicated when submitting the application for assistance;
- **students in debt to Università Bocconi for any reason will be blocked from academic and administrative proceedings and will also have their access to free or reduced rate meals suspended, and payment of the scholarship, until their administrative position is regularized.**

Art. 22 – University Transfers and Changing Departments

For students transferring to another university after 20 September 2014, the application submitted to ISU Bocconi will be sent to the organization for the right to study at the University where the student has requested transfer, only if requested by the interested party. The student will therefore lose the assistance conferred by Università Bocconi and will have to return any money collected.

Students transferring from another university to Università Bocconi after 20 September 2014, must request the right to study office at the original university to officially transfer the application, provided it has been submitted within the timeframe set out in the Regulations. Acceptance and evaluation of the application according to the established regulations is subject to receiving the transferred application and completing enrollment at Università Bocconi by and no later than the foreseen deadlines.

For the 2014-15 A.Y., the transfer of the application and enrollment at Università Bocconi must be finalized by and no later than 30 November 2014, the final deadline.

CHAPTER III - INTEGRATION FOR INTERNSHIPS AND INTERNATIONAL MOBILITY PROGRAMS

To encourage student participation in international mobility programs (International Exchanges, Campus Abroad, Double/Joint Degrees, CEMS-MIM Master, THEMIS) and internships organized and recognized by Università Bocconi, lump-sum grants of € 1000 are made available to students eligible to receive the ISU Bocconi scholarship for all eligible students and, if funds are available, scholarship integrations related to the period spent abroad. Student recipients may use the reduced rates service up to the moment of graduation; the day after graduation onwards, they must pay the full price.

Art. 3 – How to Submit Applications

Applications for reduced rate canteen service must be submitted at the same time as the scholarship application. Students should select the appropriate field on the online application or they can apply separately if they do not apply for the ISU Bocconi Scholarship.

In the latter case, the application must be submitted online through the online form at www.unibocconi.eu/isudesk during the same period as for ISU Bocconi scholarship application.

FAMILY HOUSEHOLD – A few examples

Applicants who are children of separated or divorced parents in case of abandonment - custody to third parties

In case of separation/divorce approved by the Courts, the applicant must consider the financial conditions of the parent that collects his/her child support, to whom the applicant is a fiscal dependent, and all members of that family household.

In case of applicants living in a family household comprising a legally separated or divorced parent who collects child support (ex: the mother), but is 100% fiscally dependent on the other parent (the father), the student will be included in the family household of the father for financial dependence (article 1 bis, paragraph 2, ISEE Regulations). To apply article 5, paragraph 5 of Italian DPCM 8.4.2001, the family household will therefore be integrated with that of the mother.

In case of applicants living with a family household not including any of the legally separated or divorced parents, making use of deductions for dependent students, the requester of assistance will be integrated into the family household of the parent with a larger share of child support, pursuant to article 441 of the Italian Civil Code. The family household thus composed will then be integrated with the family household of the parent, if not already present, that collects any child support for the student, as established by the separation verdict.

In case of applicants living in a family household not including any of the legally separated or divorced parents, in absence of fiscal dependence by any of the latter, the family household of the student will be integrated with the family household of the parent who collects child support, if provided for in the verdict. If not available, the student will be integrated with the family household of the parent held to a greater amount of alimony, pursuant to article 441 of the Italian Civil Code.

In the absence of legal separation or divorce or of any other judicial provision, as in the case of de facto separation, if the parents belong to two different family households, the family household of the student is added to that of both parents, unless the condition of desertion of the spouse exists, which is verified by judicial authorities or the public authority qualified in the matter of social services (in any case, judicial or administrative procedures need to be already in progress regarding the status of desertion/abandonment).

In cases in which a provision exists in which the qualifying Court orders the forfeiture of one or both parents from the authority over children with custody to third parties, the applicant must document his/her financial conditions in addition to that of all the members of the family household of the subject to whom the applicant was given custody.

Applicants who may not be considered “independents” pursuant to article 10 of these Regulations, included in a family household that does not include any parent and married parents:

In case of parents **not making use** of deductions for dependent students, the family household of the student will be integrated with both parents (and any other people present in the respective family households or fiscally dependent on them).

In case of parents **making use** of deductions for dependent students, only the student (therefore excluding all other people who may be part of his/her family household) is a family household with both parents (and any other people present in the respective family households or fiscally dependent on them).

Applicants who are orphans or with one deceased parent

The restrictions for the condition of “independent” students (ART. 10) do not apply to applicants who are orphans with two deceased parents, and the evaluation of their financial conditions depends exclusively on

the income produced/assets held of the student's family household, which is that resulting from the family status, during the period of reference set out in the regulations.

Applicants who are children of single parents

The family household of a student living in a family household made up of only one of the parents who have never been married, is integrated with the family household of the other parent.

Married applicants

Applicants who have a proper marriage contract must attest the financial conditions of all the members of the conventional family household made up as a result of the marriage, to which the spouse also belongs, who may be an IRPEF dependent of another person, in addition to the people present in the family status and any subjects dependent on them.

On the basis of the Presidential Decree n°394 of 31 August 1999, the financial and asset situation for foreign students must be certified with appropriate documentation as follows:

This certification can also be given by Italian authorities which are qualified to give a guarantee of economic coverage under the current enrolment arrangements for foreign students at Italian universities. Students who, during the 2014-2015 academic year, complete a study abroad period recognized by the Università Bocconi International Relations Office and who would like to be considered non-resident students may request recognition by providing the documentation described above, if holding a rental contract in Milan with payment for at least 10 months in 2014-2015, despite going abroad for study/work reasons.

Otherwise, if the **period spent abroad** (certified by the IR Office), added to the paid period of stay in Milan – duly documented – is at least a total of 10 months total during the period 1 September 2014 - 31 August 2015, the applicant can request the status of "non-resident" through the ISUdesk form, by 3:00pm on 12 September 2014, and proceed as follows:

The total number of months spent abroad added to those documented as paid in Milan must be at least 10 months.

For periods during which students reside in one of the Bocconi Residence Halls, no documentation is required.

Students are required to inform ISU Bocconi in writing and in a timely manner of any type of change regarding their self-certified "non-resident" status. Failure to do so and in the case that the Office identifies inconsistencies compared to what was self-certified, the amount of the possible Scholarship will be changed and the student will be reported to the University Disciplinary Commission.

Applicants who know they are not able to document their "non-resident" status when completing the ISUdesk form may immediately request the status of "commuting" online.

REGULATIONS FOR STUDENTS WITH DISABILITIES

The following regulations included in these Regulations apply only to students belonging to categories referred to in article 2 of Italian Law n. 118 of 30 March 1971, or other categories with disabilities protected by law, with a recognized disability equal to or greater than 66%.

1. Scholarship assistance is available to eligible students with disabilities equal to or greater than 66%, for a maximum period of three semesters in addition to the legal duration of the program attended, starting from the absolute first year of enrollment: nine semesters for Bachelor programs, thirteen semesters for the Integrated Master of Arts in Law program and seven semesters for Master of Science programs.
2. If the recipient belongs to the categories protected by Article 2 of the Law n° 118 of 30 March 1971 or to other categories with disabilities protected by the law, with a recognized disability equal to or greater than 66%, the annual amount for a scholarship may be increased to a maximum of € 2,711.00 for resident students, € 3,858.00 for commuting students and €7,065.00 for non-resident students. This scholarship increase, which may be attributed upon a justified request of the interested party, may be converted into provision of special equipment and separate teaching materials, accommodation places, allocation of companion or assistant for study or interpreting or other suitable aid to overcoming individual difficulties.
3. For these students, it is possible to define individual merit requirements, based on the type of disability, which could diverge up to a maximum of 40% from the criteria set out in these Regulations. Merit requirements will be established by the ISU Bocconi Board, having met with the faculty member who is delegated to integration of students with disabilities.

For students with disabilities with a recognized level of disability equal to or greater than 66%, the regulations regarding revocation of scholarships and the payment of the second installment are not applied.
